EDUCATION

High School Diploma,

Digital Communication and Media/Multimedia

Sep 2012 - March 2016

- Elektrotehnička škola „Nikola Tesla“
- Pančevo

HARD SKILLS

- NestJS
- React
- Vue
- Laravel / Symfony
- FastAPI
- PostgreSQL
- MongoDB
- Redis

SOFT SKILLS

- Communication
- Critical thinking
- Project management
- Leadership
- Problem Solving

TOOLS / PLATFORMS

- AWS
- Azure
- LangChain
- BetterStack
- Cursor AI
- Claude
- Codex
- Docker
- Jira
- Grafana k6

WORK EXPERIENCE

Virtuelni Asistent

Remote

March 2026 - Currently

Co-Founder

- Developing an agentic platform on AWS using NestJS and Python-based MCP servers.
- Building embedding, re-ranking, and document summarization workflows using AWS Bedrock and Lambda.
- Implemented Redis-based semantic search caching and AWS SQS message queuing for permanent message storage.
- Using LangChain for model orchestration and integrating MCP servers with internal client workflows.

LangChain • AWS Bedrock • AWS SQS • AWS SES • AWS Lambda • AWS S3
AWS EC2 • NestJS • NextJS • Docker • PostgreSQL • Python • Redis

CHI Software

Remote

AI Implementation Architect

September 2024 - March 2026

- Designing ETL & RAG pipelines using Azure Services
- Implementing KYC Verifications using Azure AI Face and Document Intelligence
- Developed Parsing, Chunking, and Tokenization using tiktoken
- Implemented workspace feature for checkout process

React • WebSockets • NestJS • Typescript • Azure AI Studio • Azure OpenAI
Azure AI Face • Azure AI Search • Python

Ledger Leopard

Remote

Senior Software Engineer

August 2023 - March 2024

- Analyzed and optimized platform bottlenecks to improve application performance and workflow efficiency.
- Developed platform features integrating OpenAI and Azure services.
- Built Azure AI Document Intelligence workers for automated document processing.
- Developed scraper and parser worker services for business website ingestion used by chatbot systems.
- Integrated role-based access control and policy management into the existing platform.
- Implemented social authentication using Auth0.

NextJS • NestJS • OpenAI • Azure AI Search • Azure Cognitive Services
Azure Document Intelligence • Azure Blob Storage • MongoDB • Monorepo
Typescript • Auth0

CERTIFICATES			
Microsoft Issued May 2026 Foundations of AI and Machine Learning		Elemental Frontend Lead Remote Jun 2021 - August 2023 • Collaborated with the CTO and management team to plan and optimize feature release cycles. • Coordinated frontend team execution to align with product timelines and platform direction. • Implemented AWS S3 and Lambda workflows for asset storage, resizing, and parsing. • Participated in technical interviews and onboarding alongside the CTO. • Led development of core platform features including automated workflows and campaign systems. • Contributed to platform architecture, roadmap planning, and product direction from the ground up. • Worked directly with Beefree and React Flow developers to address security concerns and improve feature implementation. React • NextJS • NodeJS • GraphQL • Tanstack Query • Zustand • PostgreSQL JWT Auth • Docker • AWS EC2 • AWS S3 Storage • Vercel	
		Momnt Senior Frontend Developer Remote January 2020 - June 2021 • Developing platform components from Figma. • Developed onboarding and fraud check widgets for the clients' websites. VueJS • NuxtJS • Tailwind • Figma • Typescript • Gitlab CI/CD	
		Serbia BroadBand Software Engineer Belgrade August 2016 - June 2021 • Led the redesign of the Hosting and Cloud Platform. • Implemented solutions including 3D Secure payment gateway integration and a cross-platform user microservice. • Developed cloud hosting platform features on OnApp, including remote terminal console, disk resizing, automated OS installation, and server management tools. • Collaborated with network engineers and system administrators to deploy product instances for Montenegro and Bosnia & Herzegovina. • Worked on secure cross-domain session handling and authentication workflows. Symfony 2 • Zend 1 • OnApp • Javascript • jQuery • Oracle DB • JWT Auth WebSockets
